**PSST...
BIG NEWS, COMING SOON
FROM IWA!**

CLASSROOM HIGHLIGHTS

from the desk of Mrs. Congelio

Community Partner Extends Hands-On Learning at IWA

Thank you to the Great Lakes Science Center for facilitating pig heart dissections with our eighth grade students. After careful observations, the students were able to cut into the heart to reveal the four chambers, peer into the aorta, and inspect blood vessels up close.

Tapping into the Design Process

Wrapping up summer safety, the first grade students were challenged to create shelters for people when they are at the beach so that they can safely enjoy the sun. Using a variety of random household items, the students first drew a design of what their outdoor space would look like, then began to build! Some designs received some modifications along the way. The students completed the project by reflecting on their design and learning.

Readers Theater in Kindergarten

Presenting...The Glum Princess: a Superkids Skit...starring IWA's very talented kindergarten students! Rehearsals have been taking place in preparation for the final presentation next week. This is sure to be a smashing success!
